

FEAR WOLF

WOLF PAPER

Your Lifelong Companion in a Dark Unforgiving Horror World

BROUGHT TO YOU BY

INTRODUCTION

The FEAR Wolf is **FEAR's flagship NFT** that provides unique in-game benefits across all the games in the FEAR Ecosystem and other upcoming entertainment products.

The Wolf will have **unique manifestations across the different FEAR games**, appearing in both 2D and 3D forms with various styles and utilities.

Gameplay and earning potential will both be enhanced.

Beyond the **in-game utility**, the Wolf can be used for:

- 
1. Metaverse Governance
 2. Access to all NFT presales
 3. Early access to FEAR digital content

FEAR Wolf owners will play a primal role in shaping how the Fear horror-verse evolves in the coming years.

WOLF DESIGNS

Here you can view some of our Wolf designs already within the Horror World.
They come in a wide variety of unique parent forms:

IN - GAME BENEFITS TO HOWL ABOUT!

The Wolves come in different ranks and clans, and each will play a pivotal role in game play. In the Dark Open Horror World starting with the **FEAR Museum**, Wolf holders will have:

 **Access to exclusive territories** where no one else can tread!

 **Additional daily gameplay** to experience:

-  Rescue your Wolf Cub
-  Feed your Wolf
-  Exercise your Wolf
-  Combat train your Wolf
-  Fight in the Wolf Arena

Your Wolf will also gain Enhanced performance
(e.g. speed, strength, endurance)
in quests

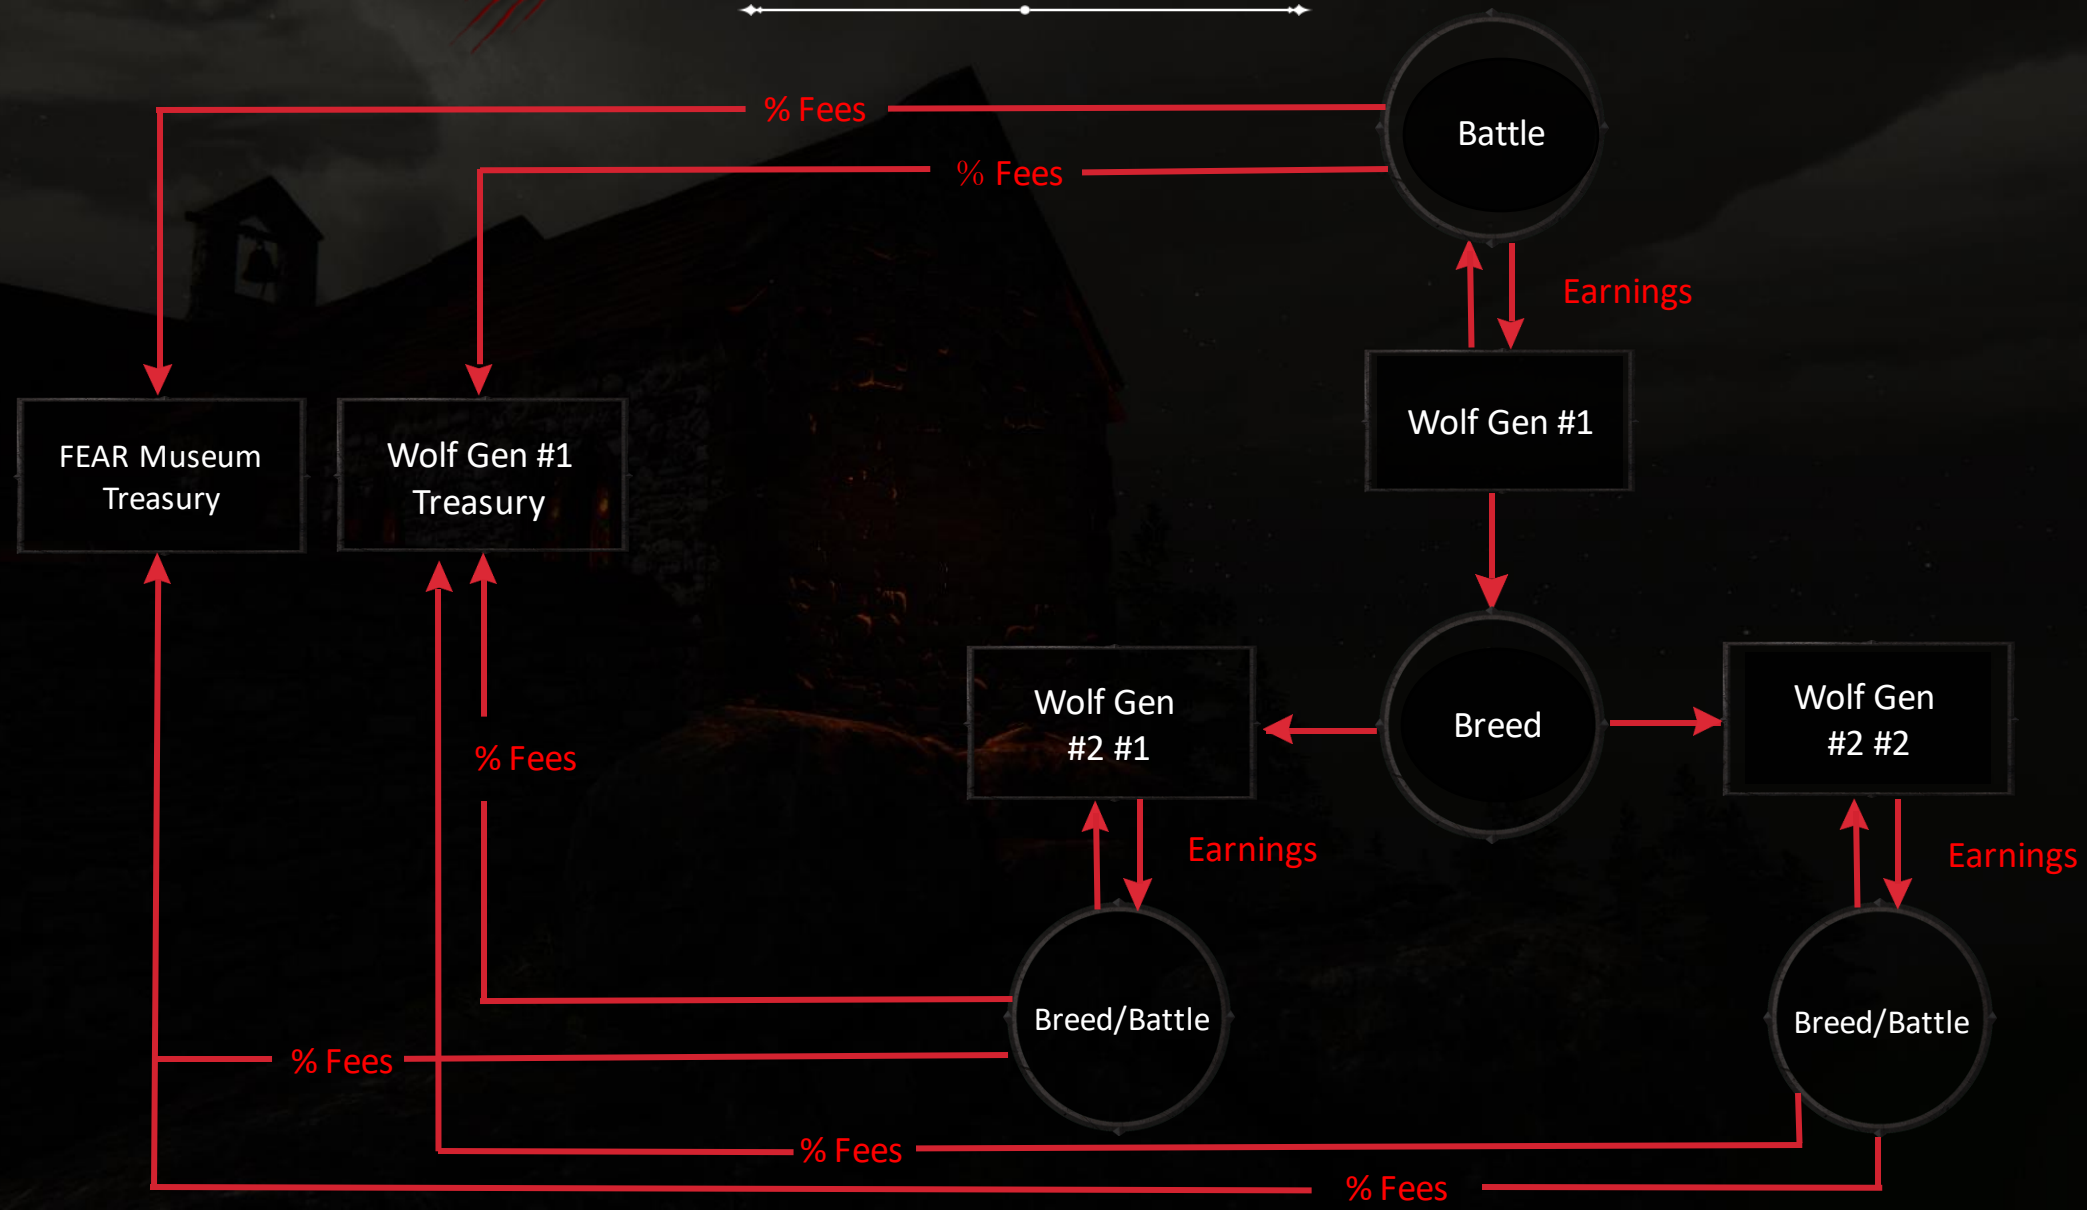

WOLF BREEDING & BLOODLINE EARNING

Breed 2nd Gen Wolves, Create Bloodlines and Share Earnings

As an original owner **you can breed Wolves and create your own bloodline** upon full maturity of your own Wolf!

- 🐾 These Wolves form a different NFT collection and will allow 1st Gen Holders to bring in additional players and earn from those new players!
- 🐾 **Breed a 2nd Gen Wolf:** these Wolves have in-game traits based on your Wolf's genetics with a level of randomization
- 🐾 **Sell your 2nd Gen Wolf** to a new player
- 🐾 2nd Gen Wolves can breed, but they must pay an X \$FEAR fee for the first time they breed. Of the X \$FEAR fee, a Y amount goes to the FEAR Museum treasury and Z amount to the Gen #1 Wolf DAO
- 🐾 **Earn X% of all in game earnings:** Battling and other earning mechanics from Gen #2 Wolves will go back to you!

WOLF BLOODLINE EARNING VISUALIZATION

FURTHER GAME & BIG DIGITAL CONTENT BENEFITS

Across other games and media

Beyond the Dark Open Horror World, the Wolf will provide Wolf holders with added benefits in two of our other games and a secret animated series...

Clucking Hell: Our existing classic survival game, where players compete as Patrick who fends off hordes of undead chickens. With the Wolf NFT, players can upgrade Patrick's pet German Shepherd Whisky into an Alpha Wolf. Watch him pulverize the vast hordes of parasitical barn animals.

The Crypt: A horror farming game, where players capture and extract human souls for \$FEAR. With the Wolf NFT, players receive a unique Wolf Demon in one of the unique crypt worlds to help extract human souls at a gruesome pace!

WOLF GOVERNANCE RIGHTS

Shape the future of the FEAR Ecosystem

The Wolf will have governance voting power allowing Wolf holders to help shape the future of the FEAR ecosystem including:

FEAR MUSEUM & OPEN WORLD

Wolf holders will be able to meet-and-greet each other in the Wolf Den:

-  Chat and vote on shaping the HorrorVerse
-  Vote on how Plots of Land will impact the HorrorVerse
-  Vote on key partners who will inhabit major parts of the land

FEAR ECOSYSTEM

Wolf holders will be able to vote on:

-  The next batch of Wolf designs
-  Expanded utilities of the Wolf in the different Fear games
-  Staking returns, token mint and burn mechanisms etc.

In general, voting power will be oriented specifically around Wolf related aspects of gameplay.

WOLF NON-GOVERNANCE RIGHTS

Major continued benefits

The Wolf will also carry non-governance rights:

Access to future FEAR ecosystem NFT whitelists / private sale at discounted rates

The right to be exchanged for other tokens / NFTs at predefined rates

CHAIN AGNOSTIC

Multiple Chains starting with Ethereum

The FEAR Wolves will be born on the Ethereum Network, however they do not need to reside there forever!

By using Muon's layer zero NFT Bridge, Wolf holders can bridge their NFT from Ethereum to any EVM chain effortlessly.

Now there is no need to fret about what becomes the number one chain of the future!

Total Number of Wolves:

6,666

Clans

5 different groups that impact the visual appearance, battle elements, and gear a Wolf has. The 5 groups are as follows: Elementals (1334), The Damned (1333), Crusaders (1333), Forest Guardians (1333), The Divines (1333)

Ranks

3 different categories that impact the in-game traits, with stronger trait levels assigned to Alphas.

The 3 categories are as follows: Alpha (666), Beta (2000), Omega (4000)

Traits

7 distinct types that can impact in-game performance of the Wolf

WOLFENOMICS

Wolf Traits & Ranks

- All Wolves have 7 distinct in-game traits that dictate the behavior of your Wolf inside the world for quests and battling
- All Trait levels begin at 0 and can be upgraded through gameplay In the world.
- The speed at which a player can upgrade Wolf traits is based on Wolf ranking (Alpha, Beta, Omega)
- Trait levels are permanently stored on chain, meaning they are transferred with the NFT when a Wolf is sold

	Trait	Definition	Upgrade Speed		
			Alpha	Beta	Omega
	Intelligence	Problem Solving and Adaption	8-10	6-9	1-7
	Howl	Special Boosts and Immunity	7-10	6-9	1-8
	Speed	Acceleration, Avoidance & Pace of Movement	8-10	6-9	1-7
	Spirit	Bravery and Determination	6-10	6-9	1-8
	Strength	Vigor and Damage	9-10	5-8	1-7
	Endurance	Lastability and Tenacity	9-10	5-9	1-8
	Loyalty	Defense and Protection	5-10	6-9	1-7

AND FINALLY!

Special Airdrop Incoming!

Yet to be discussed on FEAR's roadmap this year, all FEAR Wolf NFT Holders will be airdropped a mystery NFT for FREE in Q2.

This NFT and its associated media transcends the blockchain gaming industry moving FEAR into other realms of major digital media. **Highlights of this Mystery NFT are...**

- 🐺 Airdropped right into FEAR Wolf holders' wallets —

You don't want to trade the Wolf before this happens, believe us!

- 🐺 NFT will have its own dedicated website
- 🐺 NFT will have its own consumable digital content
- 🐺 Fees generated from this NFT go into the Gen 1# Wolf Holders DAO
- 🐺 This project has been in the works for over four months now!

WOLF TECH

The Tech used for the Wolf's creation is as diverse as the Wolfenomics

Biconomy: Transfer your Wolf with no fees in and out of the FEAR wallet powered by Biconomy Gasless transactions

Uno Re: Insure your precious Wolf using Uno Re's groundbreaking NFT insurance model

Chainport: Bridged FEAR token allows BSC token holders to move from BSC to Ethereum to get a Whitelist spot for a Wolf

Solidity: NFT Minting of Wolf traits is written in blockchain's most widely adopted language

Muon: Bridging of NFTs to any chain. Wolf randomization of in game traits on chain using Muon's RNG

Unity: Experience world class game play with your Wolf in the Museum HorrorVerse built with Unity

Web3Auth: Social Media Managed wallets using Torus Labs. Manage your Wolf in the FEAR Wallet

Transak: Purchase FEAR using your credit card to get a place on the Wolf Whitelist
